Good Morning Dr. Habib,

Thank you for the opportunity to revise our manuscript, ***“Evaluating the Economic Impact of Water Regulation and Sustainability on Urban Supply Chain Facility Planning”***. We would like to thank the reviewers for their efforts and insight. In the outline below we have responded to the comments of each reviewer.

Reviewer’s Comments:

1. There is a blank sub-section “Limitations” at page no. 8, Please review that one whether you could include or delete.

We have removed this section from the manuscript.

2. There are some typographical problems, particularly 2.5 Thesis at page 6.

We have fixed these errors.

3. Research objectives would be the part of Introduction. Hypothesis could be included in “Methodology”.

We have made the recommended changes.

4. Try to fill empty space at the left column of page 8. IJSCM highly appreciates no empty space at the paper.

The formatting has been revised to minimize any white space.

5. Reduce the contents of “Conclusion”. In that case, you could add another section by the name of “Discussion”.

We have made the recommended changes.

6. Add email address of 4th author

The email address of the 4th author has been added.

Sincerely,

Sincerely,

Erick C. Jones, PhD. P.E., CSSBB
